

INSTALL THE APP, REGISTER, LOG IN

Your Forest Rangers client area — app.forestrangers.lu

Forest Rangers is going digital. Your client area gives you access to **your bookings, your dog's profile and your invoices**, plus a direct message line to Gabriel. Allow **10 minutes** to set everything up — just once.

1 PUT THE SHORTCUT ON YOUR PHONE

2 MINUTES

The app is not downloaded from a store: it installs straight from your browser, by adding a shortcut to your home screen. Once added, it behaves like any other app — icon, full screen, no address bar.

On iPhone and iPad

Use **Safari**. In Chrome or Firefox the option does not exist on iPhone.

- 1 Open **Safari** and type **app.forestrangers.lu**
- 2 Tap the **Share** button — the square with an arrow pointing up, at the bottom of the screen
- 3 Scroll down the list and tap **Add to Home Screen**
- 4 Tap **Add**, top right

On Android

Use **Chrome** (or Samsung Internet, same principle). The wording varies a little from phone to phone.

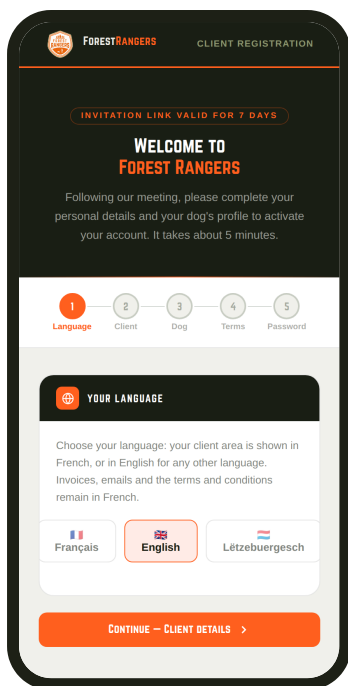

- 1 Open **Chrome** and type **app.forestrangers.lu**
- 2 Tap the menu **⋮**, top right
- 3 Tap **Install app** or **Add to Home screen**
- 4 Confirm with **Install** or **Add**

That's it. You can move the icon, put it in a folder or in the bottom bar like any other app. On a computer, no shortcut is needed: the address **app.forestrangers.lu** is enough — add it to your bookmarks.

2 YOUR FIRST REGISTRATION

7 MINUTES

Registration is **by invitation only**. You receive a personal link by email, **valid for 7 days and usable only once**. The link is yours: it already carries your first name and email address.

The five steps at the top:

Language, Client, Dog, Terms, Password

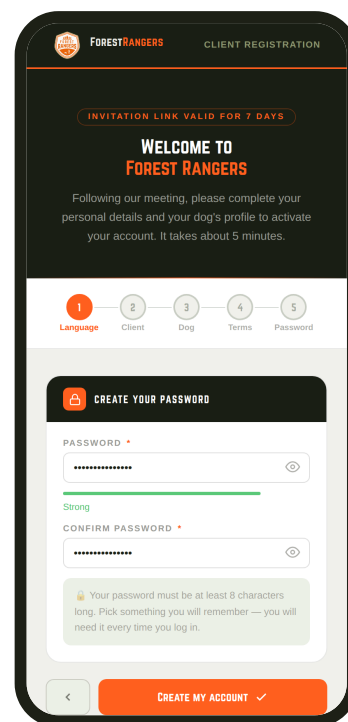

- 1 **Open the link received by email**, on your phone or computer. The form opens directly in your name.
 - Nothing in your inbox? Check your junk / spam folder.
- 2 **Your language** — French, English or Luxembourgish. Your client area is then shown in French, or in **English for any other language**. You can change it later in **Settings**. Invoices, emails and the terms and conditions remain in French.
- 3 **Your details** — contact details, emergency contact, people allowed to collect your dog, and how we get into your home (keys, alarm, code, particularities).
 - This information matters most on the day something does not go as planned.
- 4 **Your dog's profile** — identity, breed, weight, neutering, vet, vaccinations, behaviour in a group and on the lead, energy level, fears.
 - **The microchip number is required**: 15 digits, in your dog's European pet passport, section III « Marking of the animal ».
 - The profile decides which group your dog walks with. The more honest it is, the better the walk goes.

- 5 **The terms and conditions** — an eight-point summary is shown in your language; the full official text is just below and stays downloadable as a PDF (in French). The box must be ticked to continue.

- 6 **Your password** — at least 8 characters, typed twice. Aim for green.

Choose a real password. It protects your details, access to your home and your invoices. Avoid your dog's name followed by a year. Three unrelated words (for example *pine-copper-42*) are both safer and easier to remember.

Nobody at Forest Rangers can see your password, Gabriel included. Passwords are managed and encrypted by Supabase, the service that hosts the database and handles the app's security. If you forget it, we cannot tell you what it was — only help you create a new one (see point 4).

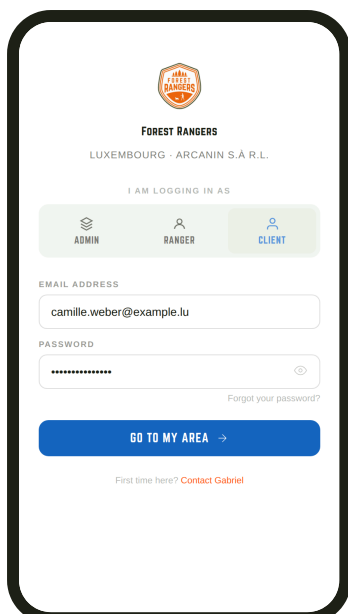

The bar under the field shows how **strong** your password is

Once the form is validated, your account is created, your **client number** is shown and you are logged in straight away. There is nothing else to do.

3 ACCESSING YOUR ACCOUNT AFTERWARDS

EVERY TIME

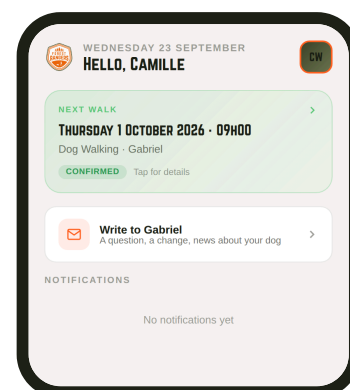

- 1 Tap the **Forest Rangers shortcut** on your home screen — or type **app.forestrangers.lu** in your browser.
- 2 The login screen offers three tabs: **Admin**, **Ranger** and **Client**. Choose **Client**.
 - This is the most common slip: with the wrong tab, login is refused even with the right password.
- 3 Enter your **email address** (the one that received the invitation) and your **password**, then **Go to my area**.

You stay logged in from one visit to the next. You will only retype your password from time to time, when the session expires.

Three tabs — make sure you pick **Client**

What you find in your area

Home	Next walk, weather alerts, notifications, invoices waiting.
Bookings	Upcoming and past sessions, New booking button, cancellations.
My dog	Its full profile, which you can edit at any time.
Invoices	Your invoices, what is paid, what is due, the estimate for the month.
Messages	A direct conversation with Gabriel.
Settings	Your details, the language of the app, the accepted terms and these guides , always up to date.

Home, and the navigation bar at the bottom of the screen

4 FORGOTTEN PASSWORD

IF NEEDED

- 1 On the login screen, tap **Forgot your password?**
- 2 Enter your email address. A message is sent immediately.
- 3 Open the email and **click the link** it contains.
- 4 Type your new password twice, then **Save**.

Three precautions, or the link will not work:

- Click the link **on the same device and in the same browser** you made the request from.
- The link is **single-use**: one click. If it has already been used, request a new one.
- The email comes from Supabase, the service that manages the app's security. It sometimes lands in **junk mail** — have a look there.

THE ESSENTIALS IN FIVE LINES

- **Address:** app.forestrangers.lu — add it as a shortcut on your home screen.
- **Registration:** with the personal link received by email, valid 7 days, single use.
- **Login:** Client tab, your email, your password.
- **Password:** 8 characters minimum, chosen by you, known only to you.
- **A problem?** Write to Gabriel from Messages, or call +352 661 999 113.
