

MAKING A RECURRING BOOKING

Book the same days every week — and what to do if it gets stuck

A **recurring booking** sets up all the walks of the coming weeks in one go: you choose the days of the week and the date it runs until. No need to book each session. **Example used in this guide:** from 1 October to 31 December 2026, Monday to Friday, morning slot.

1 WHERE IT HAPPENS

- 1 Log in at app.forestrangers.lu, **Client** tab.
- 2 At the bottom of the screen, tap **Bookings**.
- 3 Tap the orange button **+ New booking**.

The form then runs over four screens: **Service** → **Details** → **Options** → **Summary**. The bar at the top always shows where you are.

2 THE FOUR SCREENS, STEP BY STEP

Screen 1 — **Service**

Screen 1 — Service

- 1 Tap **Dog Walking** for a group walk.
- 2 Tap **Continue** at the bottom of the screen.

Day Care also accepts recurrence: the steps are identical. Boarding does not — it is booked stay by stay and goes through Gabriel's approval (guide 4).

Screen 2 — Details, the top

- 1 **Choose the dog or dogs.** Tap the card: it switches to *Selected* with an orange border. If your two dogs go out together, select both — the multi-dog discount applies automatically.
- 2 **Start date.** For our example: **01/10/2026** (a Thursday).
- 3 **Time slot.** Morning (pick-up around 9:00), midday (around 12:00) or afternoon (around 14:30, in spring and summer). The same slot applies to every day of the series.

Screen 2 — the top: **dogs, date, time slot**

Screen 2 — the **Recurrence** block: this is the step that counts

Screen 2 — the Recurrence block

- 4 Tap **Recurring booking** — not « One-off booking », which would set up a single session. The chosen block turns orange.
- 5 Tick the **days of the week**: **Mon** **Tue** **Wed** **Thu** **Fri**. Selected days turn solid orange. Walks run Monday to Friday; weekends are not offered.
- 6 Fill in « **Until** »: the end date of the series. For our example: **31/12/2026**.
 - This field is **required**. While it is empty, the form will not move on and shows a red message just below. Public holidays are removed automatically.
- 7 Tap **Continue**.

Screen 3 — Options

- 1 Add a **note** if needed: special instruction, change of access, remark about the dog.
- 2 **Reread the three confirmations** — weather conditions, access to your home, your dog's health and behaviour. They are ticked by default.
 - Check the home access in particular: it shows the information saved on your profile. If it is no longer right, untick it and write it in the note.
- 3 Tap **See the summary**.

Screen 3 — your **access details**, as saved on your profile

Screen 4 — Summary

- 1 Check the service, the dog(s), the start date, the time slot and above all the **Recurrence** line: it must list your days and the end date.
- 2 Check the **estimated total**: price per session, number of sessions in the series and the total.
- 3 Tap **Confirm the request**.

The total shown is an estimate for the whole series. You are only invoiced at the end of each month, and only for the sessions actually carried out.

Screen 4 — **Summary**, with the number of sessions and the total

That's it

The « **Booking confirmed!** » screen appears: all the sessions of the series are set up. You find them straight away under **Bookings**, and a reminder reaches you the day before each one.

You don't see this screen? Then nothing was saved. The form never confirms halfway: either the whole series is set up, or nothing at all. Go to the table in section 3.

The screen you should see at the end

3 STUCK? FIND YOUR CASE

What you see	Why	What to do
Red message « <i>The end date is required.</i> »	You chose recurrence but left Until empty.	The form takes you back to the Details screen: fill in the end date — for our example, 31/12/2026.
The Continue button does nothing, the screen scrolls up	A required field is missing, or the start date cannot be booked.	Look where the screen stopped: the field in question is marked in red or highlighted just there.
« <i>No dog registered. Add your dog from your client area before booking.</i> »	No dog profile is linked to your account — the step was skipped at registration.	My dog → Add a dog , then start the booking again.
Your female dog appears in pink, marked <i>In heat — unavailable until...</i>	Heat mode is on: she cannot go out in a group during this period (21 days).	Wait for the date shown on her card, or write to Gabriel if the date needs correcting.
Red banner above the start date	The chosen date cannot be booked: same day after 8:00, weekend, public holiday or closed period.	Choose another start date. The rest of the series is not affected.
The calendar refuses today	After 8:00, the current day is closed — the round has already been planned.	Take tomorrow as the start date. For an exceptional case, call Gabriel.
« <i>Session expired</i> »	You stayed inactive for a long time, the connection closed.	Tap Log in again , then start the booking again from the beginning.
« <i>Cannot connect to the server</i> »	Network cut off or too weak when sending.	Switch to Wi-Fi or wait for a signal, then reload the page and start again.
« <i>Booking NOT saved — Server error...</i> »	The request was refused by the database. Nothing was saved.	Take a screenshot of the full message and send it to Gabriel. No need to retry several times.
The page stays blank or the display is frozen	An old version stayed in your phone's memory.	Close the app completely and reopen it. If needed, open app.forestrangers.lu in the browser.

In every case, don't stay stuck. Write to me from **Messages** in your area, or call **+352 661 999 113**: I set up the booking for you from the administration, and we then look at what went wrong on your side. Nothing is lost.

4 GOOD TO KNOW ONCE THE SERIES IS SET UP

Situation	What happens
Cancel a single session	Bookings → calendar view → the day → the session → Cancel only... (guide 3). The rest of the series is unchanged.
Away for several days	Use Cancel a period : all sessions between the two dates are removed at once.
Cancellation deadline	Free until 9:00 the day before . After that, the session is charged at 100%. If the ranger is already on site: 100% + €5 travel fee.
Two dogs on the same session	The second dog gets a discount. If you cancel one of them, the remaining dog goes back to the single-dog rate.
Confirmation	Dog Walking and Day Care are confirmed automatically. Only boarding goes through manual approval.
A full day	If there is no space on one date of the series, you are told for that day only. The rest stands.
Weather	On a MeteoLux red alert, walks may be cancelled. On orange alert, heat, rain or wind, length and distance are adjusted. You are told in the app.
Invoicing	One invoice per month, issued at the end of the month for the sessions actually carried out. Available under Invoices, with the estimate for the current month.
End of the series	A month before the end date you receive a notification, then a reminder and an email a week before — so you can book the next period in time.

OCTOBER TO DECEMBER, IN ONE LINE

- Dog Walking → your dog → start **01/10/2026** → time slot → **Recurring booking** → days Mon to Fri → **Until 31/12/2026** → Continue → Confirm.
